

# NORTHERN NIGHTS, STARRY SKIES

A 60-minute public television documentary celebrating star-bright skies, Dark Sky sanctuaries, Indigenous star knowledge, and our stewardship of the night sky

A Co-Production

Twin Cities Premiere  
**RE-SCHEDULED**

Event Partners

Photo: Travis Novitsky

Join us for a visually stunning celebration of the North Country's starry skies. In *Northern Nights, Starry Skies*, photographer Travis Novitsky, Grand Portage Band of Lake Superior Chippewa, leads an exploration of the heavens as seen from Voyageurs National Park, the Boundary Waters Canoe Area Wilderness, and Quetico Provincial Park—together comprising the world's largest designated Dark Sky sanctuary. Ojibwe artist and scholar Carl Gawboy shares Indigenous star knowledge complemented by Indigenous and cultural astronomers Jim Rock and Jessica Heim and astronomer Bob King. Learn how artificial light is impacting our world from author Paul Bogard, and about the movement to reduce the harmful human-health and environmental effects of light pollution from Starry Skies North founders Cynthia Lapp and Randy Larson and bird expert Laura Erickson.
